

REPLACEMENT FILTERS FOR WAM DUST COLLECTORS

Now our proven high efficiency Ultra-Web® media is available for WAM dust collectors - same form, exact fit, higher function. Get direct replacement filters for your WAM collector from a filter specialist company that designs its own filter media and manufactures filters to tight specifications – Donaldson.

Main Features and Advantages

- Advanced media is more efficient in capturing submicron dust particles (0.3 micron and larger)
- Longer filter life and better pulse cleaning due to surface loading technology
- Lower energy use with better pulse cleaning and lower operating pressure drop
- Ultra-Web® filters reduce filter plugging with melt-blown media

Available now

Replacement filters are on stock and ready to ship!
